Hello lovely people,

My name is Antigoni, Noni (non-ee) for short, and I am the who? behind minoko studio.

I studied to do something else, but I always felt that I am an artist by default. Long story short, here we are, as I decided to officially become an artist.

My love for tiny, colorful things, that I used to collect since I was very young, always filled me with pride and excitement and helped me go through my adult life up to now. I love spending hours in small, creative shops and places, choosing my next trinkets. And after a lot of trial and error, minoko happened, where small paper goodies to share and to keep are made by me!

Maybe it's nothing major yet or artistic perfectly done, as I am still learning and exploring, but the tiny cards and stickers you will see in this file, only made me think "but is this good enough??" for a couple of seconds at the time. And so I decided to share them with the world!

Maybe there is a small shelf in your cute shop to place some of these goodies? You are most welcome to take a look in the next pages! I would love to hear from you!

Warmly,

Noni
